DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 10-15, drawn to a tuning fork-type vibration gyro, classified in class 73, subclass 504.16.
 - II. Claims 16-17, drawn to an electrode trimming method for a tuning-fork type vibration gyro, classified in class 73, subclass 1.37.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of calibrating the product. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for calibrating the product as claimed can be practiced with another materially different product or (2) the product as claimed can be calibrated in a materially different process of calibrating that product. In the instant case the product as claimed can be calibrated without trimming the detecting electrodes.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Marmelstein on April 5, 2004 and Mr. Wong on April 12, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2856

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John E Chapman whose telephone number is (571) 272-2191. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on (571) 272-2208. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
